## **DETAILED ACTION**

This is in reference to response received 31 August 2005 to the office action mailed 03 August 2005. There are 18 claims, claims 1 – 18 pending for examination. Applicant's amendment necessitated this Election/Restrictions.

## Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 8 directed to method for , drawn to method for using a computer to enable or to facilitate communication between 2 or more parties in which a party pays a fee, bears a cost, or provides consideration wherein benefits or consideration is other than money, classified in class 705, subclass 1.
- II. Claims 9 18, drawn to method for enabling or facilitating communication in which a Merchant Intermediary enables or facilitates one party to pay a fee, bear a cost, or provide consideration that in whole or in part benefits the party that receives the communication for the right or opportunity to transmit or to direct a communication to the receiver party wherein benefits or consideration is money, classified in class 705, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

Application/Control Number: 09/776,498

Art Unit: 3629

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because compensations are different in each group and would require different search.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Naresh Vig whose telephone number is (571) 272-6810. The examiner can normally be reached on M-F 7:30 - 6:00 (Wednesday off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Weiss can be reached on (571) 272-6812. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
